

***Australopithecus sediba*: a New Species of *Homo*-like Australopith from South Africa**

**Darryl de Ruiter
Department of Anthropology
Texas A&M University**

*Australopithecus
sediba* represents a
transitional form
intermediate between
the australopiths and
Homo, and calls into
question the taxonomic
assignment of several
prominent fossils.

**Monday, September 27, 2010
5:00 PM in Lecture Hall 2**

**Fall 2010 EvoS Seminar Series
evolution.binghamton.edu/deruiter**
