

# EVOS

EVOLUTIONARY STUDIES PROGRAM  
AT BINGHAMTON UNIVERSITY

## **Mammals and Lice: Evolutionary Insights from Host-Parasite Associations**

**Jessica E. Light**

Department of Wildlife and  
Fisheries Science  
Texas A&M University

*Research in the Light Lab relies on field work and museum specimens. We use molecular and morphological data from these recent and ancient specimens to help elucidate broad evolutionary processes operating in distantly related taxa. This talk will focus on the evolutionary associations between mammals and lice.*

**Spring 2011 EvoS Seminar Series  
Monday 2/14 at 5:00 PM in S1-149
